

Glasgow Women in Computing Science

The Glasgow Women in Computing Science group (GWICS) was built to provide a network for supporting career progression in Computer Science and Academia, from undergraduates, to PhD students, staff and beyond.

What we offer

GWICS holds monthly meet ups, talks and information sessions from leaders in academia and industry as well as providing a supportive network for new PhD students and early career researchers.

Open to all

Every GWICS event is open to all staff and students at Glasgow Universities, from Undergraduate level to Chancellor and everywhere in-between. We also love to have visitors from further afield.

Organisers

Maha Alanqoudi
m.al-anqoudi.1@research.gla.ac.uk

Frances Cooper
f.cooper.1@research.gla.ac.uk

Lito Michala
